u learn to appreciate just what that neans. It means having a quiet time to think over your life, and whether at the right time. It means the think-ing out of the influence that your friends have upon you, which one is good and which one is bad. It means the planning out in your own mind of that which is good to be done, and the danning it out so entirely and deciddly that you are nrged on by an inward spirit of grace to do the deed thich seems just. It does not mean the mere wasting away of time in idle thoughts or building eastles in the sir; estler that, having no foundation, though it may mean closing your eyes and resting and having some day dream of fature happiness; a dream that you may help in its realization; a dream that has some foundation; and one that, when it comes true, will seem to make another dream come to fill its place. This making good dreams realities is a possibility with you and me, and we can't have the dreams unless we have that little time alone, when we can ait down, rend ourselves closely and clearly, think out how the heart can

nusson, traced their descent.
In time, however, the Northmen loaded their ships with timber and sailed away to Greenland, and thence to Iceland.

If any settlers remained behind, they became so mingled with the dark brown natives that when white men came again, their descendants were not to

COLUMBUS'S LOST ANCHOR

The Oldest Relle in Existence of the On the night of the 3d of August, 1408, the little fleet of Christopher Columbus, the discoverer of America, he being then upon his third voyage, lay at unchor just off the southwest point of the Island of Trinidad, off the main land of South America, which he had

seen that day for the first time.

Being on board of his ship," says Washington Irving in his history of the great navigator, "late at night kept awake by painful illness and an auxious and watchful spirit, he heard aterrible rouring from the south, and beheld the sea heaped up, as it were, by a great ridge or hill, the height of the ship, covered with foam and rolling toward him with a tremendous uproar. As this furious surge approached, ren. or rope away back, it will be mo dered more terrible in appearance by but slightly. The cause of the rafety of his vessels. His own ship was suddenly lifted up to such a fearing they should be swallowed up, wall. but the mountainous surge passed on, and gradually subsided, after a violent contest with the counter-current of the bromstick, which you can support be strait. This sudden rush of water, it laying across the tops of two doors.

of this relie, it is an anchor in the the owner as follows: In 1863 among simplest form of expression. The shaft the notes made by the government for

of six feet at the distance of 127 feet from the nearest beach of the sea. His first supposition was that he had stumbled upon a relic of the Phoenicians or of some other of the uncient nations who have been supposed by nations who have been supposed by made to recall them, but only two nations who have been supposed by were returned to the officials. The many to have visited the coasts of third went into a collection of curiosi-

America thousands of years ago.

But an examination of local facts and authorities soon convinced him eral offers of over \$100 for the bill, and examination of local facts and accord \$200 in the bill, and the state of the stat that a portion of his garden now occur-ples the very post at which the ships cash for it. of August 2, 1498. The land is con-stantly rising from the sea along the There were on British pastures last entire coast, as has been shown by year nearly 22,000,000 sheep and lambs Humboldt, Findlay and scores of others showing an advance of nearly a milwho have written upon the subject, lion and a half over the number is and the rate of this rising is known to 1890. Our total sheep stock last year, have been quite sufficient to turn in moreover, exceeded by \$,000,000 head 400 years the anchorage of the great the flocks of two years ago, and by fleet into the garden of a private citimore than 4,000,000 the flocks of 1891

There is not a particle of doubt, a year saving up money to spend in a day therefore, at the end of the rigid inquiry that has been made that the an-

HER REAL OPINION.

What a Pretty Girl Was Heard to Ob serve Feelingly.

Most of us have not the courage of our own convictions or opinions, but follow blindly in the wake of others who have set the pace for us. We albut are afraid to venture ourselves for fear of wounding public opinion. A pretty girl who is considered one of Philadelphia's most charming bads, A little care for your h with a Madonna face and an air of you big returns next water. sanctity that is most at variance with her real nature, shocked but at the same time stirred up a party of young folks who make society fads their laws by announcing in public that she despised German opera. "I know it is very bad form to say so, but I do. I think there is ten times more narmony in one line of the 'Mikado' than in the whole opera of 'Lohengrin,' always excepting the wedding march. I think the fashionable handshake is silly and unnatural, and I love peanuts." With these three terrible announcements she gazed calmly on the astonished hearers and expected a right royal drubbing until, to her surprise, the most punctilious one of the lot said in

a half-frightened way, as if startled by her own temerity: "I quite agree with you, but I would never have dared to tell a living soul if you had not speken first." THE IMPASSABLE WALL

Ropes Suspended Vertically Protect of If you strike with a cane the lower end of a cord or rope suspended vertically, you will be surprised at the slight effect which your blow will produce. Instead of throwing the cord or rope away back, it will be moved. cally, you will be surprised at the slight effect which your blow will prothe obscurity of night, he trembled for phenomenon is easily discovered. Because of the inertia, the lower end of height that he dreaded leat it should the part struck tends to move. The be overturned or cast upon the rocks, result is that the end of the cord rises while another of the ships was torn and winds around the cane, checking riolently from her anchorage, leaving the blow completely. This simple obwere for a time in great consternation, known as the magic or the impassable

is supposed, was caused by the swell. Behind these cords this suspide ing of one of the rivers which flow into place open the floor any fragile objection. the Gulf of Para, and which were as yet - even a costly one and defy one unknown to Columbus."

The anchor thus lost on the night of "wall," to break that object. No August 2, 1498, nearly 400 years ago, matter how hard he strikes at it with his cane across the ropes, he will sucthe southwest extremity of the Island cool in floing nothing but getting of Trinidad (Point Arenal, as Columbus mamed the spot, vide Irring) has recently been recovered by Senor Argos-

tino, the gentleman who now owns the point of land in question. It has the rare merit of being the oldest relic extant of the great navigator and of the discovery of America. discovery of America.

As would be expected from the age The history of this oddity is told by is round and 8 feet 9 inches in length.
At the head of the shaft is a round ring
